Board O' Gram 2019 - 27: Harbor Club Expansion Update

What's happening with the expansion?

First, the exterior of the three venues is largely completed. Pictured below are the three venues including our existing Harbor Club in new paint. I know, we will all miss that yellow!

The Cove

The Lakeside Grille

You can also see that the parking lot paving and striping is complete for the winter. We expect to reseal and stripe the old parking lot in the spring with warmer weather which will more seamlessly blend the old lot, new lot, and repaired areas. Additionally, you can see that all the sidewalks are complete and connecting our three buildings. Now that construction is predominantly inside, the weather should be much less of a factor. Pictured below are inside photos of the two new venues that have been drywalled.

Lakeside Grille

Hall of Fame

The Cove

We still are expecting an occupancy permit to be completed towards the end of January 2020. We also are anticipating a soft opening for both venues in the month of February. As we near the finish line, please understand that this is still a construction zone. We receive daily reports of people walking through the new spaces with construction in progress. Please for your safety do not enter these areas! We need to keep our members safe and stay out of the way of our construction team who is working hard to complete this project for us. We are all very excited to see this project completed and begin our new phase as an expanded and multifaceted country club. The benefits and opportunities for our members, employees and community are tremendous! Thank you all again for your continued interest and support for our Fawn Lake Country Club!
